Title:

Support Proposals to Advance Research Capacity (SPARC): Helping the UBC Community Submit High Quality Applications

Primary location where research to be conducted: University of British Columbia

Faculty:

Department:

Institution which will administer project funds (Institution Paid):

University of British Columbia

Budget:

Total Requested Amount: \$950000

THE FOLLOWING SECTIONS ARE NOT APPLICABLE TO ALL PROGRAMS

Is this a resubmission of an unsuccessful application to the same Funding Opportunity?

☐

Yes

☐

No

Dawson, Marliese

Certification Requirements

☒ Human subjects ☐ Human stem cells ☐ Animals ☒ Biohazards

☒ Environmental Impact ☒ Containment Level 2

☒ Clinical Trial

☒ Contains a randomized trial

☒ In order to carry out the proposed research in this application, an exemption from Health Canada under Section 56 of the Controlled Drugs and Substances Act is required. I agree to obtain an exemption from Health Canada to use the controlled substance for research purposes, as needed.

Partnered/Integrated Knowledge Translation (iKT) projects

Project requires a partner AND/OR a knowledge user? ☒ Yes ☐ No

☒ Partner and knowledge user ☐ Partner only ☐ Knowledge user only

Other Project Information

For statistical purposes, does this application propose research involving Indigenous peoples? ☒ Yes ☐ No

Does your proposal address TCPS 2 - Chapter 9 Research Involving the First Nations, Inuit and Métis Peoples of Canada and Indigenous partnering community/organizational ethical guidelines? ☒ Yes ☐ No

Please explain your engagement with the community in relation to the research, so reviewers can assess the level of engagement as required by TCPS 2 - Chapter 9 and Indigenous partnering community/organization ethical guidelines:

Community engagement processes between researchers and communities will be done via a collaborative and participatory approach as appropriate to the nature of the research, and the level of ongoing engagement desired by the community.

Is sex as a biological variable taken into account in the research design, methods, analysis and interpretation, and/or dissemination of findings? ☒ Yes ☐ No

Is gender as a socio-cultural factor taken into account in the research design, methods, analysis and interpretation, and/or dissemination of findings? ☒ Yes ☐ No

Please describe how sex and/or gender considerations will be integrated into your research proposal or explain why sex and/or gender are not applicable to your research proposal:

Description for sex and gender considerations in the research design.
